## PROJECT UPDATE

The I-70 Phase 2D project is in its 30th month of construction.

Construction activities completed in August included installing steel girders for the new bridge, milling of Monocacy Boulevard, and paving construction on South Street.

Construction activities scheduled for September include pouring concrete for the deck (driving surface) of the new bridge and full-depth paving construction on South Street.

In October, crews will open the new lanes on first westbound, then eastbound I-70, then complete final surface paving on I-70.

Project completion is anticipated by the second week of November, weather permitting.

For everyone's safety, please drive carefully, stay alert and reduce speed when traveling within the project work zone.

**We request that the public not trespass in construction areas.**
